SONOVET 2000

Size of a Fat Calculator!

FEATURING:

- ◆ Superior Imaging
- ◆ Totally Portable
- ◆ Only 8 LBs!
- ◆ 100% Digital System
- ◆ Blended Frequency solid state probes
- ◆ Cine/Bank Memory - up to 10 seconds of image instant replay with 50 images in digital storage
- ◆ Both Large & Small Animal Applications with 7" Screen
- ◆ Versatile - designed for both the farm and the office
- ◆ Report Pages giving patient data & diagnosis
- No more writing reports!

Battery Powered

THE ULTRASOUND SYSTEM
THAT GOES **EVERYWHERE!**

SUPER LIGHT WEIGHT (8 lbs) ULTRASOUND SYSTEM WITH SUPERIOR IMAGE QUALITY

- 100% digital system with digital beam former
- Smart Cards – for computer storage and email image transmission (optional) – no more carrying printer – emailing client reports with images is done easily
- Battery Operated – up to 2 hours of scanning with each battery – no more looking for power outlets and getting cords dirty which need to be cleaned
- Cine memory – 10 seconds of image instant replay
- Bank Memory – Save up to 50 Images
- Variable focusing with high frame rates
- Blended-frequency solid state rectal probes: 4-7 MHz or 5-9 MHz Bovine/Equine
- Blended-frequency solid state 2.5 – 5 MHz (Sow)
- No mechanical probes to break down
- Base station with large monitor for teaching and showing clients and students
- Gestational tables with icons – Bovine & Equine
- Early pregnancy diagnosis – twins and fetal sexing
- Percent of tendon damage for musculoskeletal studies
- Report pages giving patient data and diagnosis (no more writing reports)
- Blended-frequency back fat/loin eye probe – 2.5 to 5 MHz with marbling software - no more royalty fees
- Blended-frequency vaginal probe – 5 to 9 MHz Solid state one piece for easy cleaning, 15mm diameter oocyte retrieval probe for easy maneuvering with biopsy guides
- Small microconvex probes for small animal

OPTIONS

AC / DC Adapters	Standoff Tendon Pads
Video Printers and Video Paper	Belt Or Hand Freeze Control
Floppy Disk Recorders	Extra Battery

Blended Frequency Probes

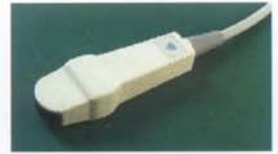

2.5-5.0 MHz Convex Probe
Abdo / Cardiac

2.5-5.0 MHz 17cm
Backfat Probe

4-6 MHz Convex
Abdo/Cardiac

4-9 MHz Microconvex
Abdo/Cardiac

5-9 MHz Endocavity
33 inches long

5-9 MHz
Tendon Probe

5-9 MHz 40mm
Tendon/Rectal Probe

5-9 MHz 60mm
Tendon/Rectal Probe

Ultrasound Workshops Call for Dates

Medison Acoma PX20-HF X-Ray (Formerly Kramex / Vet Ray)

- 20 Lb. Light Weight System
- 200 Ft. Extension Cord Without Loss of Power
- Half Second Faster Than Competition
- Like a Brick With a Power Cord
- 20 mA
- 90 kV
- Laser Positioner
- High Frequency
- Travel Case
